Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830

SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier			
Product name	Aral Antifreeze Silikatfrei		
Product code	# 56112-DE51		
SDS no.	456112		
Product type	Liquid.		
1.2 Relevant identified uses	of the substance or mixture and uses advised against		
Use of the substance/ mixture	Automotive coolant system (antifreeze/anticorrosion) concentrate. For specific application advice see appropriate Technical Data Sheet or consult our company representative.		
1.3 Details of the supplier o	f the safety data sheet		
Supplier	Aral AG Geschäftsbereich Schmierstoffe Überseeallee 1 D-20457 Hamburg Germany		
E-mail address	Customer Service Center / Environmental Protection / Product Safety: +49 (0)40 639-52288 MSDSadvice@bp.com		

1.4 Emergency telephone number				
EMERGENCY TELEPHONE NUMBER	Carechem: +44 (0) 1235 239 670 (24/7)			

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Acute Tox. 4, H302 STOT RE 2, H373 See Section 16 for the full text of the H statements declared above. See sections 11 and 12 for more detailed information on health effects and symptoms and environmental hazards.

2.2 Label elements

Hazard pictograms

Date of previous issue

Signal word	Warning		
Hazard statements	H302 - Harmful if swallowed. H373 - May cause damage to organs through prolonged or repeated exposure.		
Precautionary statements			
Prevention	P260 - Do not breathe vapour. P270 - Do not eat, drink or smoke when using this product. P264 - Wash hands thoroughly after handling.		
Response	₱314 - Get medical attention if you feel unwell. P301 + P312, P330 - IF SWALLOWED: Call a POISON CENTER or physician if you feel unwell. Rinse mouth.		
Storage	Not applicable.		
Disposal	P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.		
Hazardous ingredients	Ethylene glycol		
Product name Aral Antifreez	e Silikatfrei Product code #56112-DE51 Page: 1/12		
Version 9 Date of issu	e 20 July 2020 Format Germany Language ENGLISH		
Date of previous issue	11 July 2018. (Germany)		

SECTION 2: Hazards identification

Supplemental label elements	Not applicable.
EU Regulation (EC) No. 1907/2	2006 (REACH)
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	Not applicable.
Special packaging requirement	<u>nts</u>
Containers to be fitted with child-resistant fastenings	Not applicable.
Tactile warning of danger	Yes, applicable.
2.3 Other hazards	
Results of PBT and vPvB assessment	Product does not meet the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006 Annex XIII.
Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII	This mixture does not contain any substances that are assessed to be a PBT or a vPvB.
SECTION 3: Composit	tion/information on ingredients
3.2 Mixtures	

Product definition Mixture

Ethylene glycol. Corrosion inhibitor. Product/ingredient name	Identifiers		%	Regulation (EC) No. 1272/2008 [CLP]	Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

[6] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid me	easures	
Eye contact	In case of contact, immediately flush eyes with plenty of water for at least 15 minus should be held away from the eyeball to ensure thorough rinsing. Check for and contact lenses. Get medical attention if irritation develops.	
Skin contact	In case of contact, immediately flush skin with plenty of water for at least 15 minu removing contaminated clothing and shoes. Wash clothing before reuse. Clean thoroughly before reuse. Get medical attention if irritation develops.	
Inhalation	If inhaled, remove to fresh air. Get medical attention if symptoms occur.	
Ingestion	Do not induce vomiting unless directed to do so by medical personnel. Never giv mouth to an unconscious person. If unconscious, place in recovery position and attention immediately. Get medical attention. If ingested, call a physician or Pois Center immediately. Get medical attention urgently informing the doctor that a pro containing ethylene glycol has been ingested and specific treatment may be requ Transport casualty together with the product container, its label, or the safety data urgently to hospital. Do not induce vomiting unless directed to do so by medical p Never give anything by mouth to an unconscious person. If unconscious, place in position and get medical attention immediately.	get medical son Control oduct ired. a sheet personnel.

Product name	Aral Antifreeze	Silikatfrei		Product code 456112-	DE51	Page: 2/12
Version 9	Date of issue	20 July 2020	Format	Germany	Language	ENGLISH
Date of previo	ous issue	11 July 2018.		(Germany)		

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EC) 2015/830				
SECTION 4: First aid measures				
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.			
4.2 Most important symptoms	and effects, both acute and delayed			
See Section 11 for more detail	iled information on health effects and symptoms.			
Potential acute health effects				
Inhalation	Vapour inhalation under ambient conditions is not normally a problem due to low vapour pressure.			
Ingestion	Harmful if swallowed. Ethylene glycol: Ingestion of ethylene glycol can cause metabolic acidosis, kidney damage, central nervous system depression, and convulsions. The estimated human lethal dose is approximately 100 ml (3.4 ounces for an adult).			
Skin contact	No known significant effects or critical hazards.			
Eye contact	No known significant effects or critical hazards.			
Delayed and immediate effects	s as well as chronic effects from short and long-term exposure			
Inhalation	Overexposure to the inhalation of airborne droplets or aerosols may cause irritation of the respiratory tract.			
Ingestion	Ingestion of large quantities may cause nausea and diarrhoea.			
Skin contact	Prolonged or repeated contact can defat the skin and lead to irritation and/or dermatitis.			
Eye contact	Potential risk of transient stinging or redness if accidental eye contact occurs.			

4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician Specific treatments

Ethylene Glycol: Gastric irrigation, ethanol or fomepizole may have value in treatment. Consult physician.

SECTION 5: Firefighting measures

In case of fire, use water fog, alcohol resistant foam, dry chemical or carbon dioxide extinguisher or spray.			
Do not use water jet. The use of a water jet may cause the fire to spread by splashing the burning product.			
m the substance or mixture			
In a fire or if heated, a pressure increase will occur and the container may burst.			
Combustion products may include the following: carbon oxides (CO, CO ₂) (carbon monoxide, carbon dioxide)			
No action shall be taken involving any personal risk or without suitable training. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire.			
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.			

SECTION 6: Accidental release measures

6.1 Personal precautions, prot	tective equipment and emergency p	rocedures		
For non-emergency personnel	nergency Contact emergency personnel. No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Floors may be slippery; use care to avoid falling. Avoid breathing vapour or mist. Provide adequate ventilation. Put on appropriate personal protective equipment.			ted personnel ry; use care to
For emergency responders	ders Entry into a confined space or poorly ventilated area contaminated with vapour, mist or fume is extremely hazardous without the correct respiratory protective equipment and a safe system of work. Wear self-contained breathing apparatus. Wear a suitable chemical protective suit. Chemical resistant boots. See also the information in "For non-emergency personnel".			
6.2 Environmental precautions	Avoid dispersal of spilt material and Inform the relevant authorities if the waterways, soil or air).		, , ,	
Product name Aral Antifreeze S	ilikatfrei	Product code 45	6112-DE51	Page: 3/12
Version 9 Date of issue 2	20 July 2020	Format Germany	Language	ENGLISH
Date of previous issue	11 July 2018.	(Germany)		

SECTION 6: Accidental release measures

6.3 Methods and material for containment and cleaning up Small spill Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Large spill Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Contaminated absorbent material may pose the same hazard as the spilt product. Dispose of via a licensed waste disposal contractor. See Section 1 for emergency contact information. 6.4 Reference to other See Section 5 for firefighting measures. sections See Section 8 for information on appropriate personal protective equipment. See Section 12 for environmental precautions. See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Protective measures	Put on appropriate personal protective equipment. Do not breathe vapour or mist. Do not ingest. Avoid contact with eyes, skin and clothing. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Do not reuse container. Empty containers retain product residue and can be hazardous.			
Advice on general occupational hygiene	0, 0 0 I			
7.2 Conditions for safe storage, including any incompatibilities	Store in accordance with local regulations. Store in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Keep away from heat and direct sunlight. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Store and use only in equipment/ containers designed for use with this product. Do not store in unlabelled containers.			
Not suitable	Prolonged exposure to elevated temperature			
Germany - Storage code	10			
7.3 Specific end use(s)				
Recommendations	See section 1.2 and Exposure scenarios in annex, if applicable.			

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Product/ingredie	ent name	Exposure limit values
Ethylene glycol	TWA: 2 PEAK: 5 TWA: 1	00 OEL (Germany). Absorbed through skin. 6 mg/m ³ 8 hours. Issued/Revised: 1/1997 52 mg/m ³ 15 minutes. Issued/Revised: 1/1997 0 ppm 8 hours. Issued/Revised: 1/1997 20 ppm 15 minutes. Issued/Revised: 1/1997
		his section, other components may be present in any mist, be applicable to the product as a whole and are provided for
Recommended monitoring procedures	If this product contains ingredients with exposure limits, personal, workplace atmosphere o biological monitoring may be required to determine the effectiveness of the ventilation or of control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 68 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to cherr agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods the determination of hazardous substances will also be required.	
Derived No Effect Level

Product name Aral Antifreeze Sili	katfrei	Product code 456112-DE51	Page: 5/12

Product name	Aral Antifreeze	Silikatfrei		Product code	#56112-DE51	Page: 5/12	
Version 9	Date of issue	20 July 2020	Format	Germany	Language	ENGLISH	
Date of previo	ous issue	11 July 2018.		(Germany)			

SECTION 8: Exposure controls/personal protection

	It should be emphasised that glove thickness is not necessarily a good predictor of glove resistance to a specific chemical, as the permeation efficiency of the glove will be dependent on the exact composition of the glove material. Therefore, glove selection should also be based on consideration of the task requirements and knowledge of breakthrough times. Glove thickness may also vary depending on the glove manufacturer, the glove type and the glove model. Therefore, the manufacturers' technical data should always be taken into account to ensure selection of the most appropriate glove for the task.
	Note: Depending on the activity being conducted, gloves of varying thickness may be required for specific tasks. For example:
	• Thinner gloves (down to 0.1 mm or less) may be required where a high degree of manual dexterity is needed. However, these gloves are only likely to give short duration protection and would normally be just for single use applications, then disposed of.
	• Thicker gloves (up to 3 mm or more) may be required where there is a mechanical (as well as a chemical) risk i.e. where there is abrasion or puncture potential.
Skin and body	Use of protective clothing is good industrial practice. Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Cotton or polyester/cotton overalls will only provide protection against light superficial contamination that will not soak through to the skin. Overalls should be laundered on a regular basis. When the risk of skin exposure is high (e.g. when cleaning up spillages or if there is a risk of splashing) then chemical resistant aprons and/or impervious chemical suits and boots will be required.
<u>Refer to standards:</u>	Respiratory protection: EN 529 Gloves: EN 420, EN 374 Eye protection: EN 166 Filtering half-mask: EN 149 Filtering half-mask with valve: EN 405 Half-mask: EN 140 plus filter Full-face mask: EN 136 plus filter Particulate filters: EN 143 Gas/combined filters: EN 14387
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

11 July 2018.

Date of previous issue

Appearance	1 invited				
Physical state	Liquid.				
Colour	Pink.				
Odour	Not available.

Potential chronic health effe	Potential chronic health effects					
General	May cause damage to organs through prolonged or repeated exposure. May cause damage to organs through prolonged or repeated exposure. (kidney)					
Carcinogenicity	No known significant effects or critical hazards.					
Mutagenicity	No known significant effects or critical hazards.					
Developmental effects	Birth defects and decreased fetal weight have been observed in laboratory animals fed ethylene glycol in large amounts repeatedly during pregnancy.					
Fertility effects	No known significant effects or critical hazards.					

SECTION 12: Ecological information

12.1 Toxicity

Environmental hazards Not classified as dangerous

12.2 Persistence and degradability

Expected to be biodegradable.

12.3 Bioaccumulative potential

This product is not expected to bioaccumulate through food chains in the environment.

12.4 Mobility in soil	
Soil/water partition coefficient (K _{oc})	Not available.
Mobility	Spillages may penetrate the soil causing ground water contamination.

12.5 Results of PBT and vPvB assessment

Product does not meet the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII.

waste disposal contractor.

Yes.

12.6 Other adverse effects	
Other ecological information	Miscible in water.
SECTION 13: Disposa	I considerations
13.1 Waste treatment methods	
Product	
Methods of disposal	Undiluted fluid Where possible, arrange for product to be recycled. Dispose of via an authorised person/ licensed waste disposal contractor in accordance with local regulations. Diluted Fluid Diluted fluid should not be discharged into sewage systems unless provided for by local regulations. Dispose under conditions approved by the local authority or via a licensed

Hazardous waste

European waste catalogue (EWC)

Waste code	Waste designation
16 01 14*	antifreeze fluids containing hazardous substances

However, deviation from the intended use and/or the presence of any potential contaminants may require an alternative waste disposal code to be assigned by the end user.

Packaging	
Methods of disposal	Where possible, arrange for product to be recycled. Dispose of via an authorised person/ licensed waste disposal contractor in accordance with local regulations.
Special precautions	This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Empty containers represent a fire hazard as they may contain flammable product residues and vapour. Never weld, solder or braze empty containers. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Product name Aral Antifreeze Silikatfrei			Product code #56112-	Page: 10/12	
Version 9	Date of issue 20 July 2020	Format	Germany	Language	ENGLISH
Date of previ	ous issue 11 July 2018.		(Germany)		

SECTION 16: Other information Classification Justification Acute Tox. 4, H302 Calculation method STOT RE 2, H373 Calculation method Full text of abbreviated H H302 Harmful if swallowed. H373 (oral) May cause damage to organs through prolonged or repeated statements exposure if swallowed. Full text of classifications ACUTE TOXICITY (oral) - Category 4 Acute Tox. 4, H302 [CLP/GHS] STOT RE 2, H373 (oral) SPECIFIC TARGET ORGAN TOXICITY - REPEATED EXPOSURE (oral) - Category 2 History Date of issue/ Date of 20/07/2020. revision Date of previous issue 11/07/2018. **Prepared by** Product Stewardship

Indicates information that has changed from previously issued version.

Notice to reader

All reasonably practicable steps have been taken to ensure this data sheet and the health, safety and environmental information contained in it is accurate as of the date specified below. No warranty or representation, express or implied is made as to the accuracy or completeness of the data and information in this data sheet.

The data and advice given apply when the product is sold for the stated application or applications. You should not use the product other than for the stated application or applications without seeking advice from BP Group.

It is the user's obligation to evaluate and use this product safely and to comply with all applicable laws and regulations. The BP Group shall not be responsible for any damage or injury resulting from use, other than the stated product use of the material, from any failure to adhere to recommendations, or from any hazards inherent in the nature of the material. Purchasers of the product for supply to a third party for use at work, have a duty to take all necessary steps to ensure that any person handling or using the product is provided with the information in this sheet. Employers have a duty to tell employees and others who may be affected of any hazards described in this sheet and of any precautions that should be taken. You can contact the BP Group to ensure that this document is the most current available. Alteration of this document is strictly prohibited.
